- Town Centre Conservation Area

APPROVED BY SECRETARY OF STATE ON 7TH DECEMBER 2007

COLOUR SCHEME GUIDE

The purpose of this Colour Scheme Guide is to inform designers, contractors and building owners of a range of British Standard paint colours that are likely to be considered suitable and to suggest a 'palette' for arriving at a colour scheme that will complement and enhance the character and appearance of the Conservation Area.

1. RENDERED WALLS (INCLUDING IMITATION TIMBER FRAMED FACADES)

Existing rendered wall panels where the render has deteriorated, should be considered for whitening back to brick unless it was originally intended for the brick not to be seen. It is generally inappropriate to apply textured coatings.

These are the suggested colours for existing rendered wall panels.

08B15 Magnolia	10B15 Creamy White	10C31 Ivory
22B15 Pearl Gray		

There are several mock Tudor effect of imitation timber framed facades. It will be appropriate for the panelling between dark timber elements to be painted a lighter white such as:

08B15 Magnolia	10B15 Creamy White	10C31 Ivory
----------------	--------------------	-------------

NOTE: The rendering of existing brick walls will not be encouraged.

2. SHOP FRONTS – SUGGESTED BASE COLOURS INCLUDING INTEGRAL SHOP DOORS

14C41 Dark Cherry	10C42 Deep Plum	18B29 Raven	10B26 Vanilla Brown
08B29 Elder Chocolate	12B20 Mairlight Green	20C40 Duchess Blue	10C38 Dark Chest
14C40 Moss Green	12C39 Ivy Green	14C38 Holly Green	18B17 Blue Milk
18C38 Fathom Blue	24C39 Regal Violet	18C33 Duck Egg Blue	18B25 Dark Admiralty Gray
20C37 Lakeside Blue
